Task Force,

I certainly agree that this is urgent. I am in travel, back later today. The Health Dept press release looks fine - pls do not wait on me; let's make sure this gets out ASAP.

For next steps, do we all agree with Miguel's recommendations? And should EPA post the County Advisory in our website?

Bob

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

The attached draft is short and I think they need a very quick turnaround (I will ask). Is it safe to say we can provide a quick review?

> On a different topic, were there any plans/discussion of the task force meeting in Flint next week? Mike and I had planned a trip up there because Flint's technical advisory group was supposed to meet. That meeting has been cancelled but we felt the need to still travel up there to meet with various groups. The Genessee County group would like to meet on Tuesday afternoon next week to go over their study.
